

RED DYE - SPRAY ADDITIVE

ACTIVE INGREDIENTS	15% Rhodamine B (Red Dye).
DESCRIPTION	Red dye for use with weed sprays.
BENEFITS	<ul style="list-style-type: none"> • Identify sprayed areas • Reduce wastage and improve accuracy • Biodegradable
APPLICATION	<p>The rate at which the dye is used depends on factors such as the type of vegetation, intensity of colour required and length of time the marker should remain visible.</p> <p>A minimum rate of 2ml per litre is suggested and should be verified on first use.</p>
RESULTS	Will help cut wastage due to double spraying, as well as increasing the accuracy of spraying.
