LAWN WEED CONTROL

WILL TREAT
50m²

- ✓ Kills Clover, Thistle and Dandelion
- ✓ Won't harm grass provided directions are followed
- ✓ Guaranteed results

Ready to use

5 LITRE

KILLS

CLOVER

DANDELION

CATSEAR

IMPORTANT: READ THE LABEL BEFORE USE

WARNING: Very damaging to off target plants. Do not use on Cotula, Dichondra or Kikuyu.

ACTIVE INGREDIENTS: Contains 1.5g/litre MCPA and 0.3g/litre Dicamba as the dimethylamine salts in the form of a ready to use liquid. McGregor's Lawn Weed Control ready to use also contains a surfactant for superior spray coverage.

PRECAUTIONS: Keep out of reach of children. Read label completely before use. **This material may be harmful if swallowed.** Avoid contact with skin, eyes and inhalation of spray mist. When spraying, wear eye protection, waterproof gloves, long trousers and closed in boots. Wash hands and exposed skin after use and before eating. Dispose of empty containers safely. Avoid contamination of water supply with chemical or empty container. **Not for use on or near food or animal feed crops. Do not use lawn clippings as mulch. Keep children and pets off treated areas until spray is dry.**

FIRST AID: If medical advice is needed, have product container or label at hand. **If swallowed:** Do not induce vomiting. For advice, call the The National Poisons Centre on 0800 POISON (0800 764 766) if feeling unwell. **If in eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if easy to do so. For advice, call the The National Poisons Centre on 0800 POISON (0800 764 766) or a Doctor if irritation occurs.

SPILLAGE: Collect by absorbing spill with inert material such as soil, sand, etc, and place in a container for disposal via domestic waste.

STORAGE: Store in original container, tightly closed, securely away from children and foodstuffs.

DISPOSAL: Dispose of this product by using it in accordance with this label. Dispose of the container with domestic waste, or rinse container and recycle.

GENERAL INFORMATION: Ready to use liquid, no mixing required. McGregor's Lawn Weed Spray controls broadleaf weeds in lawns without harming grasses. Weeds controlled include Catsear, Chamomiles, Chickweed, Clover, Daisies, Dandelion, Docks, Onehunga Weed, Pennyroyal, Plantains, Prickles and Thistles. It will not control grass species such as annual Poa, Couch or Paspalum.

DIRECTIONS: Measure the size of lawn before spraying for correct application rate. 1 litre of the ready to use spray will treat 10 square metres of lawn. Apply evenly over the measured area. Can also be used to spot treat weeds in your lawn. Apply in spring and autumn when weeds and lawns are in active growth.

DO NOT APPLY TO LAWNS LESS THAN 3 MONTHS OLD. Do not apply after prolonged periods of dry weather. Do not apply if rain is likely within 6 hours. Allow 7 days after treatment before mowing lawns and do not use the first grass clippings following treatment to mulch plants. Apply carefully during still weather as spray drift can damage desirable plants especially sensitive plants like grapes and tomatoes. Depending on weather conditions results may take 3-4 weeks to appear. Not for use on food or animal feed crops.

HSNO APPROVAL CODE: HSR002461
